PROFESSIONAL EXPERIENCE

Software Developer

Jan 2023 — Present

Independent Contractor

- Design and deploy bespoke, high-performance HTML websites and digital assets for local businesses and professionals.
- Manage the full development lifecycle from initial UI/UX design in Adobe Suite to technical implementation and ongoing maintenance.
- Prioritize speed, security, and personal branding while delivering professional-grade code and custom web architecture.
- Provide 24/7 emergency support and weekly system audits for active clients under recurring service contracts.

Front of House Specialist & Expo

Nov 2023 — Jul 2025

Waffle Champion

- Mastered the Toast POS interface for high-volume digital systems management and precise financial data entry.
- Maintained operational uptime by troubleshooting hardware and software issues under pressure.
- Acted as a central communication hub between back-end production and front-end delivery to ensure seamless workflow.
